

Mount Aloysius College Two Step PPD Form

Name: Goldyn Nicholas
Last First Middle Initial Maiden

Two-Step PPD

Intradermal Mantoux PPD (TB Testing)

Before entering clinical all students must have a two-step PPD. The intradermal is given 2 consecutive weeks. Every student who attends clinical must have a yearly PPD. If a student withdraws and comes back into the program they must re-submit a two-step PPD again.

You must receive your PPD no more than 4 weeks before your deadline.

The PPD cannot be given if a live virus (MMR or Varicella) vaccination is given within that 4-6 week time frame. If a student needs to be vaccinated and it is less than 4 weeks before school begins, please refrain from giving the live virus until after the PPD is given and before their clinical rotation begins.

Two-Step PPD

PPD # 1: Date Given: 1-12-16 Site: Left _____ Right X

Administered by Shannon Caronde

Lot # C4216AA Expiration date 9-16-16
